As a sign of the new identity, the timelessly elegant Mahlau lettering “Amtsgericht” floats above the entrance and enters into a congenial synthesis with the architecture as both a carrier of information and an external ornament.

[Save](#)

Due to its use as a vehicle hall, the fabric of the building had been severely damaged, which made it necessary to replace the ceiling above the ground floor with extensive support measures.

[Save](#)

The former garage doors to the rear were opened up to allow light into the courtrooms. Reminiscent of the wooden gates, the glass panes are staggered in terms of their depth, lending the façade a moving pictorial quality. The foyer, with its skilfully placed sparse accents, reflects the dignity of the court. The inserted reinforced concrete ceiling, which is attached to the expression of the removed ceiling, is visible
