Hello Marina

We would like to present our project on your network. Please let me know what material you need. Do the pictures have to be a certain size? Do you also need plans and sections and a short description?  
I would then send everything via wetransfer.

Kind regards from Tübingen,  
Martina

Martina März

Hi Dannien Roller Architekten + Partner,

I'm reaching out from the Built Environment Channel, an Australian-based network which uses installed digital screens to deliver local and global news, messaging from peak industry bodies and inspiring architectural projects from all around the world.

I would love to feature your beautiful **Residential & Commercial Building Renovation** on our network. We have more than a hundred of our screens in Architecture Practices and Design & Build companies around Australia who would no doubt find your project very inspiring!

If this is something that interests you, would you mind sharing some high-resolution images or media kit with us? You can [find out more here](#), and if you have any questions please don't hesitate to ask.

I look forward to hearing from you.

Best regards,  
Marina
